

Pool Cue Chalk HolderValves

The following is an introduction to Pool Cue Chalk Holder, I hope to help you better understand Pool Cue Chalk Holder. Welcome new and old customers to continue to cooperate with us to create a better future together!

1. Product Introduction of the Pool Cue Chalk Holder

The Pool Cue Chalk Holder is one of the accessories for billiard cues. You can fill in this accessory with the chalk you need. Its role is to protect the user's hands from direct contact with the chalk, thereby preventing our hands and the chalk from being contaminated. Liangju can design different holes according to the size of the billiard cue, which is more convenient for users to operate.

2. Product Parameter (Specification)

Product Name:	Pool Cue Chalk Holder
Material:	NBR, HNBR, EPDM, SILICONE, VITON, FLS, FFPM, PTFE
Size:	Any size, Customized/standard and nonstandard
Color:	Black
Packing:	plastic bag&carton box or according to your requirements
Sample time:	20-25days
Application:	Pool Cue Chalk Holder
Warranty:	2years

3. our service.

1. Inquiry about our products can be replied within 12 hours.
2. Professional & experienced staff help you solve problems of silicone and rubber products.
3. Accept customized shape, material, hardness, temperature, size, color, logo and packing.
4. Mode of production: Compression or injection or extrusion.
5. We have a comprehensive range of in-house manufacturing facilities, allowing us to provide fast and effective manufacturing.

4. Quality Control and Certifications

We serve our customers with high quality Customized Shape Rubber Gaskets by strictly follow ISO 9001:2015 and IATF 16949.

5. Packing, Payment and Shipping

Our packing for all the Customized Shape Rubber Gaskets, strong enough to ensure its safety throughout the whole delivery no matter domestic or oversea shipping. Customized Packing/LOGO/Labeling are Available.

ISO 9001 : 2015

IATF 16949 : 2016

6. FAQ

1. Do you supply material?

Yes, we have our own mixing rubber factory and can supply you with Synthetic Rubbers to fit your applications.

2. If OEM is acceptable?

Yes, Samples are Free of charge

3. What Is EPDM Rubber ?

Xiamen Liangju Rubber Technology Co., Ltd.

Tel: +86-592-7255151

E-mail: Dylan@tec-rubber.com

EPDM is a synthetic rubber polymer and is made from ethylene and propylene monomers. This rubber was developed in the early 1960's and used to produce variety of products like radiator and steam hoses, freezer gaskets, tires, roofing membranes and aircraft seals to name only a few.

4. Why is rubber used to produce industrial products?

Rubber has certain unique properties which makes it suitable to produce rubber products which are widely used in various industrial applications. Rubber is water repellent. It is resistant to alkalies and weak acids. Rubber has elasticity, toughness, impermeability, adhesiveness, and electrical resistance. These properties make rubber useful as an adhesive, a coating composition, a fiber, a molding compound, as well as an electrical insulator.

5. Which type of rubber is best for my application?

There are a range of natural and synthetic rubbers with different properties, making some more suitable than others for particular applications—the key of course is choosing the most appropriate one! For specific requirements, please ask our rubber products specialists for guidance.
